**1. Where are you from? Who introduced you to HBCUs?\***

I am from South Carolina. I had a lot of family members who attended HBCUs.

**2. Why did you choose an HBCU over a pwi?\***

Growing up I was exposed to a very diverse group (neighborhood, School, city, etc.) However, I never experienced being surrounded by people who looked similar to me. With my going into college and starting a new chapter in life, I really wanted to be exposed to something I never had the chance to experience.

**3. What is the story of your "experience" at Your HBCU given its heralded status as a stellar and prestigious institution?\***

Finishing my freshman year has been life changing. My experience was really one to remember. I was connected with amazing scholars and professionals. I got involved in many organizations that allowed me to really give back. I also had the opportunity to be in leadership positions.

**4. "First time" experiences at your HBCU?\***

Our motto at CAU is " I'll find a way or Make one." Understanding what this meant really helped me out when I first got there.

**5. Who are the professors that have impacted your life in and out of the classroom? How did they do that?\***

Dr. Kimbro - This man CHANGED my life. You will never go in a class and leave bored. Any time he opens his mouth you know that there will be power to follow. He is truly a leader and teacher. His books are also amazing as well. Professor Hill - This women is phenomenal. This is the best english class I ever had. While we were required to do a lot of work, each one served a purpose. The conversation we had in class really allowed you to think and put things in a new perspective.

Mission accomplished is a program started to emphasize the importance of Mental Health.
