1. Where are you from? Who introduced you to HBCUs?*

I am from a small town called Halifax in the state of Virginia. I have known about HBCU's my whole entire life because both my parents attended an HBCU (St. Paul's College)

2. Why did you choose an HBCU over a pwi?*

Many reasons like I was in marching band and when I went to HBCU homecomings I would always picture myself breaking it down on the field during Half-time and also because I wanted to experience how it would feel like to be at a HBCU. I decided to attend Johnson C. Smith University because of the band, the location which is in the heart of Charlotte, NC., I liked how JCSU set up their classrooms and how the professor would know your name and that you are not like a number. And also because JCSU provided their students with laptops to help with their studies.

3. What is the story of your "experience" at Your HBCU given its heralded status as a stellar and prestigious institution?*

My experience was Wonderful. I wouldn't have changed anything about it in the world. I went to my HBCU for 4 years, Did Marching band and concert band for all 4 years. I pledged into a fraternity my junior year (Iota Phi Theta). Made outstanding friends and learned a lot about myself as a black man and as a future leader in my community.

4. "First time" experiences at your HBCU?*

To many firsts to name. :)

5. Who are the professors that have impacted your life in and out of the classroom? How did they do that?*

This is a hard question to answer because all of my professor helped shaped me into the person I am today but if I had to pick it would be Dr. Davenport because I remember back in my freshmen year I was slacking off and she pulled me to the side and told me this: "You need to get it together

before I call your mama because you slacking off". I'm forever grateful for Dr. D for doing that because if I didn't get myself together I probably would had failed out of college. Today Dr. Davenport is still a professor at Johnson C. Smith University and when I come visit the campus I make sure I at least try to stop by to say hello and she still gives me wisdom on life and encourages me to continue to work hard and succeed in my life.

23. Are you a member of a fraternity?

I pledged Iota Phi Theta Fraternity, Inc. from the Beta Theta Chapter in Spring 2011 and you ask why...well because I wanted to build a tradition, not rest upon one and also the brothers there

before I joined showed me how they fellowship together and even invited me to events/cookouts so I knew it was something I wanted to be apart of my sophomore year. And I also saw them do a lot of community service off and on campus.

I would tell them that I love them and that I hope that I am making each and every one of you proud.

By giving me the knowledge that I would need in order to go into the field I desired, showing me how to network with people.

26. What advice would you give high school students filling out college applications for the first time?

Don't go to college just to party. Go get that education because your parents, tax payers, and ect. are paying for you to succeed in life so make us all proud.

27. If you could only speak two sentences to the youth coming after you what would you say?

Go to school and stay focused with your studies. Always strive for your dreams because you can make them happen.

By the internship opportunities that were offered and given. Workshops like helping to work on resumes and interviews.
